LITTLE KINGDOM INTERNATIONAL SCHOOL

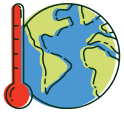

HOLIDAY HOMEWORK SESSION: 2024-25 CLASS V

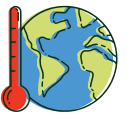

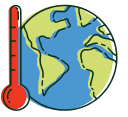

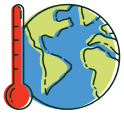

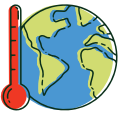

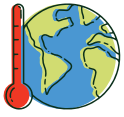

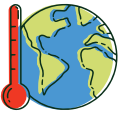

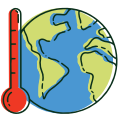

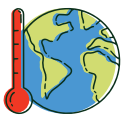

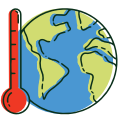

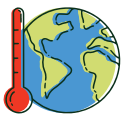

THEME: GLOBAL WARMING

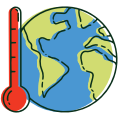

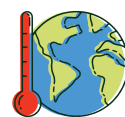

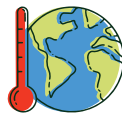

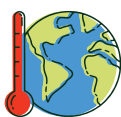

“Global warming is no longer a future threat. It has become our reality.”

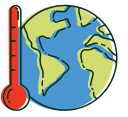

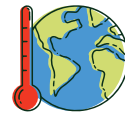

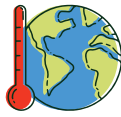

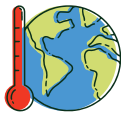

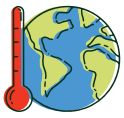

We have chosen the theme of global warming because it is one of the most important issues facing our world today. Global warming affects our environment, causing extreme weather conditions like scorching heat, heavy rains, and melting ice caps. By understanding global warming, students can learn how to protect our planet because they are the future of this world. Simple actions like saving energy, reducing waste, and planting trees can make a big difference.

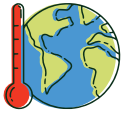

So, enjoy your summer while caring for our planet!

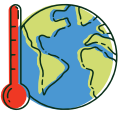

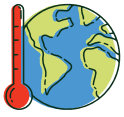

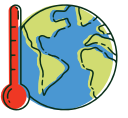

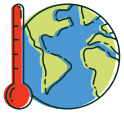

Message for parents

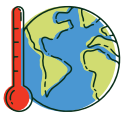

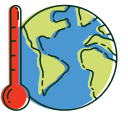

Dear parents,

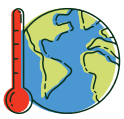

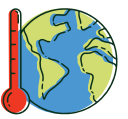

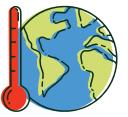

Holidays are a cherished time that children eagerly wait for, offering a wonderful opportunity for them to refresh and have a healthy break. It's a perfect period for students to develop new skills and hobbies, ensuring they have plenty of fun. Encouraging them to engage in activities that develop skills and hobbies not only adds joy to their vacation but also fosters personal growth.

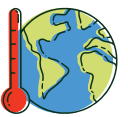

Additionally, holiday homework plays a crucial role in shaping their intellectual minds. It offers a chance to apply and experience what they've learned in school, fostering a deeper understanding of concepts. Exploring the locations mentioned in their study materials or making models of the concepts learnt in Science, these are the fun activities that create a clear foundation.

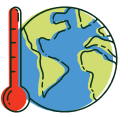

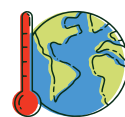

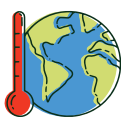

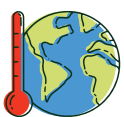

As we embark on this holiday journey, let's make the most of it by encouraging our children to take up opportunities for their growth. Wishing you all an enriching holiday season filled with cherished memories and meaningful experiences.

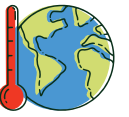

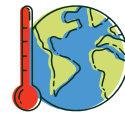

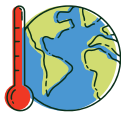

Warm regards,
Principal

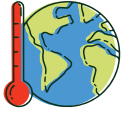

Little Kingdom International School

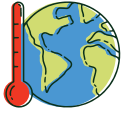

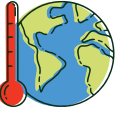

Instructions

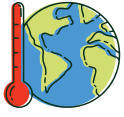

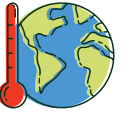

Dear Students!

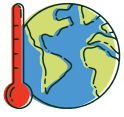

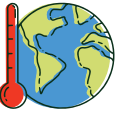

We are sharing some ideas to make your vacation even more fun:

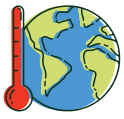

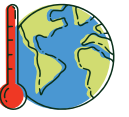

1. Why not try out a cool summer activity like swimming or dancing? You can also spend some time doing yoga, exercise, or meditation to keep your mind and body healthy.

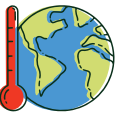

2. Make it a habit to read the English newspaper every day. It's a great way to improve your language skills and stay updated with what's happening around the world.

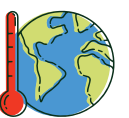

3. With your parents' permission, you can use apps like Word Search, Four Pics One Word, or Word Cookies to boost your vocabulary. It's a fun way to learn new words!

4. Practice speaking in English with your parents, siblings, friends, and relatives. This will help you become more confident in this global language.

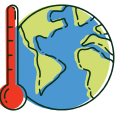

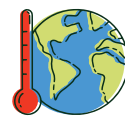

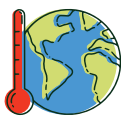

5. Want to improve your handwriting? Just practice a little bit every day and you'll see a big difference!

6. Remember to set a time limit of maximum one hour for watching TV or playing computer games. It's important to have a balance between screen time and other activities.

Have a fantastic vacation!!!!!!

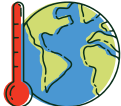

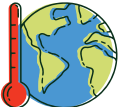

HOLIDAY HOMEWORK

• English

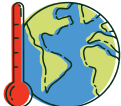

Objective: Students will reinforce their English language skills by creating a short poem showing the effect of global warming.

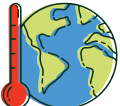

Activity: Global Warming Poem Writing

Instructions:

Write a poem on the theme global warming. You can take reference from the internet to understand the topic, but make sure the final poem must be your own creation (No use of AI tools).

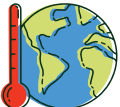

Here's an example to inspire you:

The Earth is warming, day by day,

We must act, without delay.

Plant a tree, save some power,

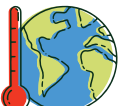

In small steps, we have great power.

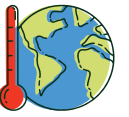

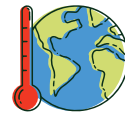

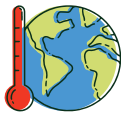

• Punjabi

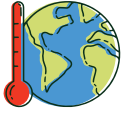

ਪੰਜਾਬੀ ਵਿੱਚ ' ਗਲੋਬਲ ਵਾਰਮਿੰਗ ' ਸਿਰਲੇਖ ਹੇਠ ਕੋਈ ਦਸ ਲਾਈਨਾਂ ਲਿਖੋ

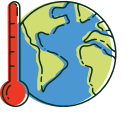

• Science

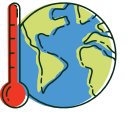

Objective: Understand the greenhouse effect and its impact on global warming.

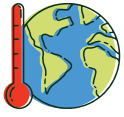

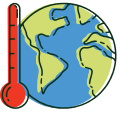

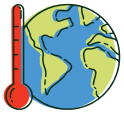

Activity: Make a Greenhouse Model using items available at your home or surroundings like soil, plastic sheet, thermometer, etc.

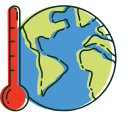

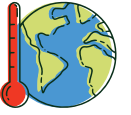

Link for reference: <https://youtu.be/lknyxHiEzs8>

A greenhouse model simulates how the Earth's atmosphere traps heat, leading to global warming. By creating this model, students will visualize and understand how the greenhouse effect works and its implications for our planet's climate.

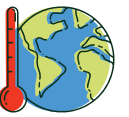

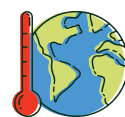

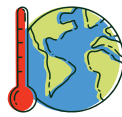

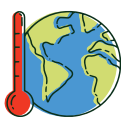

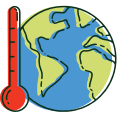

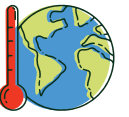

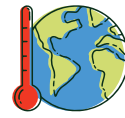

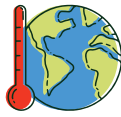

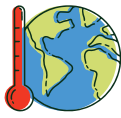

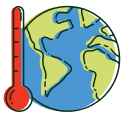

Observation: Write a short paragraph about what you learned from this experiment and how the greenhouse effect contributes to global warming. Note any changes in temperature and discuss why these changes occur.

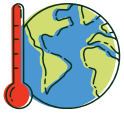

• Hindi

ग्लोबल वार्मिंग विषय से संबंधित चार्ट बनाएं और ग्लोबल वार्मिंग को रोकने के उपायों से संबंधित विडियो बनाकर भेजे।

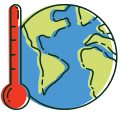

• Maths

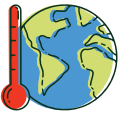

Temperature Tracking

Objective: Note down how temperatures vary across different regions of India.

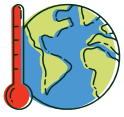

Instructions:

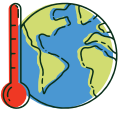

1. Track the daily maximum and minimum temperature for one week for four cities-

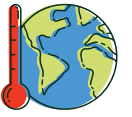

Sources: Internet or newspaper

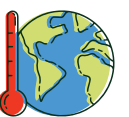

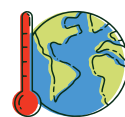

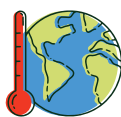

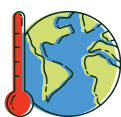

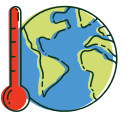

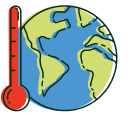

- One city from North India (e.g. Delhi)
- One city from South India (e.g. Chennai)
- One city from West India (e.g., Mumbai)
- One city from East India (e.g., Kolkata)

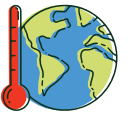

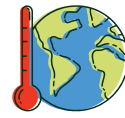

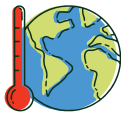

1. Create a table to record the temperatures for each city date-wise.

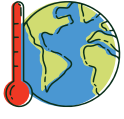

DATE	CITY 1 (NORTH)	CITY 2 (SOUTH)	CITY 3 (WEST)	CITY 4 (EAST)
DAY 1				
DAY 2				
DAY 3				
DAY 4				
DAY 5				

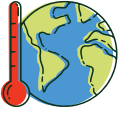

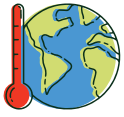

Questions to Answer:

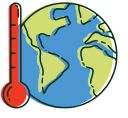

1. What is the maximum and minimum temperature recorded for each city?

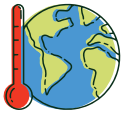

2. Arrange the maximum temperature of each city in descending order.

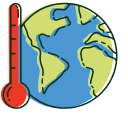

3. Arrange the minimum temperature of each city in ascending order.

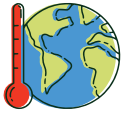

4. Which city experienced the highest temperature during the week?

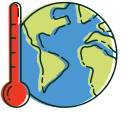

5. Which city experienced the lowest temperature during the week?

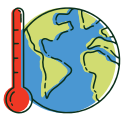

• Social Science

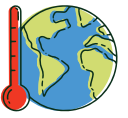

Global Warming Map Activity

Objective: Identify and understand the global impact of global warming. **Instructions:**

On a world map, mark the following

- Areas experiencing rising sea levels
- Regions facing severe droughts or heatwaves
- Locations where glaciers are melting
- Areas affected by increased hurricane or typhoon activity
